After clicking on one of the instruments from the list, the application will display this symbol in the form of a widget where you can easily set the volume and either Sell or Buy by choosing the red or blue button.

The screenshot shows a trading interface with a dark grey background. At the top, there is a 'Symbol' field containing 'GBPPLN'. Below it is a 'Volume' field with a numeric input '1.2' and a slider control. At the bottom, there are two buttons: a red 'SELL' button with the price '5.1603' and a blue 'BUY' button with the price '5.1633'.

What is more, you can check your account balance, equity, margin and the total profit of opened positions at the bottom of the application window.

Balance: 25 009.81 Equity: 25 530.80 Margin: 5 243.98 Profit: 126.98 EUR
